

Accessibility Plan 2018-2021

(Statutory)

Vision Statement

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan will be reviewed every 3 years or where operational needs dictate and approved by the Academy Council. The review process can be delegated to a committee of the Academy Council, an individual or the Head. At Harpfield Primary Academy the Plan will be monitored by the Headteacher and evaluated by the Academy Council. The current Plan will be appended to this document.

At Harpfield Primary Academy we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

Aims:

Our Aims are:

- Increase access to the curriculum for pupils with a disability, medical condition or other access needs
- To improve the physical environment of the school to increase the extent to which pupils, staff and other members of the school community with a disability, medical condition or other access needs can access education and associated services.
- Improve the delivery of information to pupils, staff, parents/carers and other members of the school community

The Accessibility Plan has been developed and drawn up based upon information supplied by the Local Authority, CET and consultations with pupils, parents, staff and governors of the school. The document will be used to advise other school planning documents and policies and will be reported upon annually in respect of progress and outcomes.

1. The Accessibility Plan is structured to complement and support the school’s Equality Objectives, and will similarly be published on the school website. We understand that the CET will monitor the school’s activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty. The Accessibility Plan will be published on the school website. The Accessibility Plan will be monitored through the Academy Council. The school will work in partnership with the Local Authority in developing and implementing this Accessibility Plan. The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.
2. Harpfield Primary Academy is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to adhering to the principles of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

3. The Harpfield Primary Academy Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipates the need to make reasonable adjustments to accommodate their needs where practicable.

The Harpfield Primary Academy Accessibility Plan relates to the key aspects of physical environment, curriculum and written information:

- Increase access to the curriculum for pupils with a disability, adapting the curriculum as necessary. This includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe (If a school fails to do this they are in breach of their duties under the Equalities Act 2010).

- Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;

- Where needed, adapt the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include adaptations to hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

4. Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

5. This Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Health & Safety Policy
- Special Educational Needs Policy
- Supporting Children with Medical Conditions and Administration of Medicines Policy
- Trips and Residential Visits Policy

6. The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the Academy Council. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

7. Equality Impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors' committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.

Current good practice

We gather information about any disability or health condition in early communications with parents and carers of children who are new to school. For parents and carers of children already at the school, we ask parents to keep the school informed of any changes to the information they have provided.

Physical Environment

There are no areas of the school to which disabled pupils have limited or no access. Disabled pupils participate in extra-curricular activities. Some aspects of extracurricular activities present particular challenges, for example lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments and school trips for pupils with medical needs, however all reasonable adjustments are made to support as full an involvement as possible

Curriculum

Through planning for individual need, we aim to provide as inclusive an approach as practically possible. Some areas of the curriculum present particular challenges, for example: PE for pupils with a physical impairment, however all reasonable adjustments are made to support as full an involvement as possible. We seek advice and support from the relevant professionals in order to ensure that we have made adequate and reasonable adjustments.

Information

Different forms of communication are made available as needs are identified to enable all disabled pupils to express their views and to hear the views of others. Access to information is provided in a range of different formats available for disabled pupils, parents and staff as needed.

Access Audit

The school is housed in a two-storey building. All entrances to the school are either flat or ramped and all have wide doors fitted. The main entrance features a secure lobby and has been fitted with a low reception hatch, this being fully accessible to wheelchair users. Access to the first floor of the school is via two sets of stairs or a lift. There is also access to the first floor externally via an extended path/ramp from one playground to the next.

The school has generous parking opposite the entrance to the school and one disabled parking bay in the staff car park.

There are disabled toilet facilities available and a medical room which has been adapted to provide privacy for pupils who need medical treatment. There are showers which are accessible for disabled pupils as well as able bodied pupils

The school has internal emergency signage and escape routes are clearly marked. Personalised evacuation plans are put in place as required.

Management, coordination and implementation and review

- We consult with other professionals and services when new situations regarding pupils with disabilities are experienced.
- The Academy Council and Senior Leadership Team work closely with the Trust Officers.
- We work closely with parents to consider their children's needs.
- The policy is reviewed annually and/or as children's needs change.

- The annual review is then shared with staff.
- We make links with other schools within the Trust to share best practice through regular SENCo network meetings and other communications as needed.

Complaints

The school works, wherever possible, in partnership with parents to ensure a collaborative approach to meeting pupils' needs. If there are any complaints relating to the provision for pupils with access needs these will be dealt with in the first instance by the Headteacher. The SEND governor or chair the Academy Council may be involved if the complaint is not resolved satisfactorily.
