

Annual Pupil Premium report – September 2020

The pupil premium is additional funding for publicly funded schools in England to raise the attainment of disadvantaged students of all abilities and to close the gaps between them and their peers.

The impact and spending strategy for pupil premium funding is reviewed at every Academy Council/ Rapid Improvement Board meeting. The annual review is published on the academy's website in September each year.

The main barriers to achievement for disadvantaged pupils in this academy are:

- Some pupils have low levels of attainment on entry and our baseline data indicates that, on average, our pupils are behind national expectations when they arrive at school
- Pupils whose parents are receiving financial support are not always able to provide additional support for visits and school events
- Not all pupils have access to materials to support learning in the home, particularly in the area of computing/IT

Total pupil premium funding for current year: £86045

Pupil premium expenditure plan 2020/21

Strategy	Cost	Success criteria	Effect of spending on pupil premium pupils
In class support and interventions	£71858	Reduce the gaps between PP pupils and others in reading, writing and maths
