

Year 5 topics for Spring Term

Y5 CLASS NEWSLETTER

Welcome to this term in Year 5. These are the topics for the remainder of the Spring term.

In literacy, the class novel for this term is *The Invention of Hugo Cabret*. The class will continue reading this novel into the summer term. The class will be thinking about writing narratives and thinking how to include descriptions of the characters and setting. They will be writing a biography and reciting a poem by TS Elliot. The class will also be exploring how to use a variety of sentences in their independent writing.

In maths, the class will be developing fluency in place value, addition and subtraction. They will be multiplying numbers with up to 4 digits by a single or two digit number. They will be dividing numbers with up to four digits by a single digit number and calculating the remainder.

In topic, the class will complete research about the life of Walt Disney and form a timeline to show the important dates. They will use this information to write a biography about Walt Disney.

In Art, the class will learn how cartoons were created and make their own flicker book. They will also be completing art work which is based on the class novel.

In computing, the class will be using *Scratch* to create their own video game. This will include testing out instructions and amending them to make the game run successfully. They will also be using *Excel* and *Word* at different times throughout the term.

PE will be on Monday afternoons and the focus will be badminton.

In music, the class will be using Chrome lab to compose their own music.

Mr Griffiths

Mrs Steele

Mrs Bebbington.
