

# Primary Ambition Curriculum

Creative Education Trust prioritises a Concerted Cultivation approach that identifies and nurtures pupils' innate talents and gifts. This is achieved by overtly and rigorously planning and creating opportunities for our pupils to practise those through an Ambition Curriculum. This approach is designed to celebrate who they are, what they can do, and prepare them for their next stage in education and beyond. The intent of our Ambition Curriculum is to ensure that our pupils are well-rounded, responsible and active citizens within their local contexts, their country and the wider world. This is fostered through PSHCE, RSE, the wider curriculum, pupil leadership initiatives and enrichment programmes. The impact of this work will ensure that our pupils will have the needed skills and experience to communicate with a range of people in a variety of contexts, seek opportunities both within and beyond their immediate surroundings and, through the experience of their successes, feel empowered to belong and contribute in any given setting.
